Members/Add Global Alert

Adds alert to every single current member - there is no global delete or undo, so be sure you're certain about your message before you add it!

The message will be appended to any pre-existing alerts on the member (see example of several global alerts in the [member page view](#)). If you have a large amount of members, this will take

some time so be patient.

Add global alert

Enter an alert to add to all 718 current members

This alert will go on all current members!

Alerts (Member Page)

Member Page

Member alerts can be also set as a pop up through toy library settings. If this setting is turned on, alerts will be displayed when the member's page is opened. There is a cool down period of 10 minutes so if the member's page has been visited in the past 10 minutes, the pop up will not appear again. However, the alerts are always visible in the Alerts box to the right of screen, and can be added/edited/deleted through this view.

The screenshot shows the Member Page for member 1847. A pop-up alert from sampletoylibrary.setls.com.au is displayed in the center, stating: "we will close on the 23 December for summer break and stocktake please have all toys returned by then example check this alert for members Ask member to confirm they have cleaned toys and toy bags/boxes as per COVID protocols testing monday alert This message was added later". The page layout includes a left sidebar with navigation links (Loan a toy/show current loans (0), Bond, Automatic emails, Children, Click and collect, Holds (0), Login history, Profile, Previous loans (0), Reservations (0), Membership card (PDF), Membership history, Missing pieces, Transaction history, Username / password, Volunteer history), a central member profile section (Member type: 2 Child Family, Date start: 2018-10-07, Date end: 2019-10-07, Renew membership button), and a right sidebar with member details (Albert (male, 11 years and 6 months), Henry (male, 7 years and 7 months), 0 distinct current missing pieces, Private member notes (0), and an Alerts box containing the same summer break message and buttons for "Update alerts" and "Delete alerts").
