Alerts

Members/All Alerts

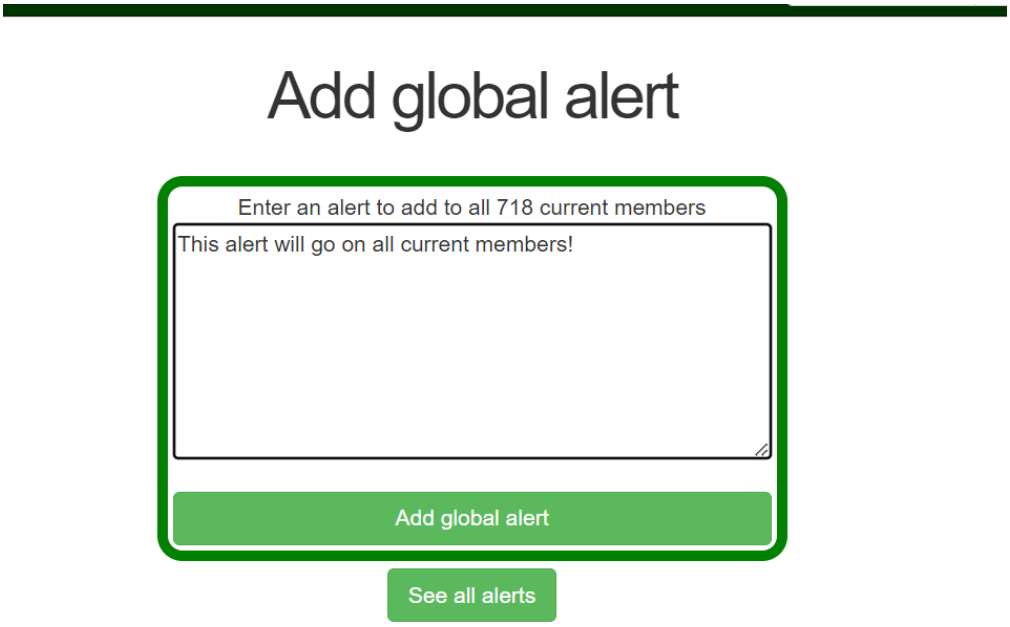

This page displays all alerts on member accounts, and can be filtered for current, locked, or all members.

Members/Add Global Alert

Adds alert to every single current member - there is no global delete or undo, so be sure you're certain about your message before you add it!

The message will be appended to any pre-existing alerts on the member (see example of several global alerts in the member page view). If you have a large amount of members, this will take some time so be patient.
