

Usual Opening Hours

Location: Toy library/Usual Opening Hours

Usual opening hours are the foundation of almost all other Calendar features. They define the times you are usual open, and are used by the [Actual Opening Hours](#) to generate open hours.

Adding Usual Opening Hours

To add a new usual opening hour, select the day of the week it occurs on, and the start and end time in 24 hour time (so 2pm is 1400).

"Every second" is utilized in the automated calendar generation, for manual calendar creation you'll need to do these individually.

Legacy

If you will no longer be using a particular Usual Opening Hour, you can mark it as Legacy - this means that past history will remain accurate, but it will no longer show as an option or generate sessions of that type.
