Listing members (landing page)

This is the initial page you will arrive on when clicking "Members".

This page/s list all of your current members - that is, members that have been verified, and not locked. It will include expired members until they are locked. For more on locking, visit Locking and Unlocking.

Search function allows you to search for anything in the table that contains that string, it is not case sensitive. For example, searching "anna" will return results for Anna Jones, Hannah Le Cras, and Jyoti Pavanthan because her email is jyoti@annasbakery.com.au

Clicking on the arrows at the top of each column sorts by that heading.

This table can be exported into .csv or excel, or simply copied, by pressing the relevant button at the left hand top of the table.
