

Square setup

Requirements

To complete the setup, you will need:

1. A login for the Square account
2. A Square Terminal device
 - Note: the integration **does not** support the Square Reader

Square permissions

To pair SETLS with your Square account, your Square login must have "full access" as shown below. Permissions are set in the Square Dashboard under **Staff > Team > Permissions**.

Permissions > Access points

☐ **Full access** 

This enables all permissions except managing bank accounts. Only the account owner can manage bank accounts.

Grant access to view and edit business and device settings.

BUSINESS

☒ Manage subscriptions to Square services a

Full access is required for this action.

☐ View and set up integrations in the App Marketplace

When logging into Square, SETLS requests the following permissions on your Square account.

Permission name	Used to
MERCHANT_PROFILE_READ	
PAYMENTS_READ	
PAYMENTS_WRITE	
DEVICES_READ	
DEVICE_CREDENTIAL_MANAGEMENT	

If you see the below screen, your permissions are not set correctly and you will need to see who in your team has full admin privileges for Square.

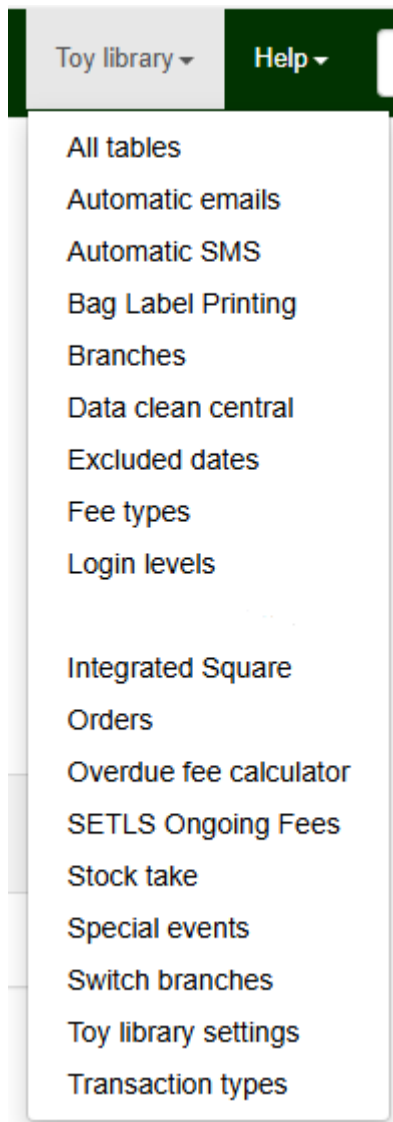

Error

Only the business owner can authorize applications for this Square account

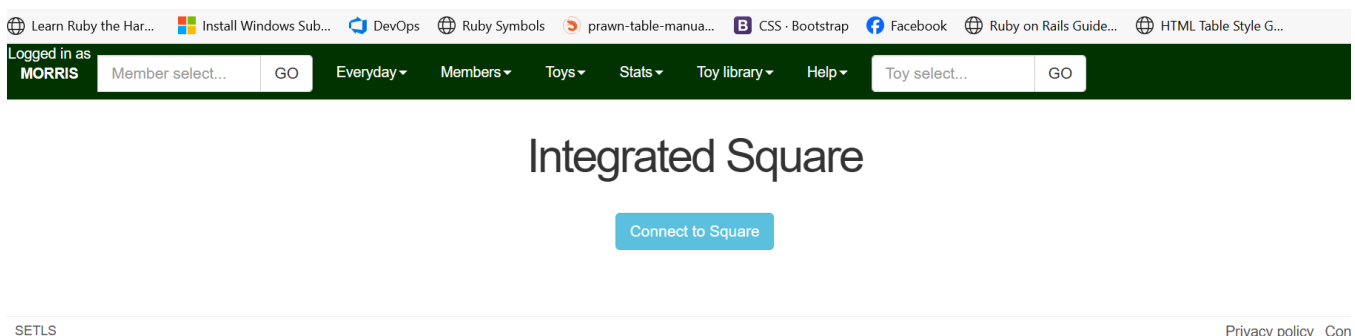

Process

1. In the "Toy library" menu, click "Integrated Square"

- If you don't see this option, please contact admin@setls.com.au

2. Click "Connect to Square" and log into Square

3. The Square status page will refresh and show:
 - Your Square "Business" and "Locations" details

- A new access token
4. Click "Add Square Terminal" and set:
- Device name
 - Branch (optional)
 - NB: we only support one Terminal per branch

Integrated Square
