

Adding or Deleting an Alert (Toy)

Adding or deleting an alert for a toy

Adding an alert to a toy is an important way to communicate things about that toy e.g. damaged piece or a missing piece needs to be reunited with it from the missing pieces box.

1. To add an alert to a toy, open the toy information by either typing the toy number in the toy select box in the navigation bar across the top or clicking on the toy name (if you are in the loan a toy page).

2. That will take you to the toy information page (see below). In the green menu options on the left-hand side click on Edit toy.
